## **Model - 10 X 10**

**The Stinger Model 10 X 10 Manipulator** is mounted on a 66-1/2" wide, 56-1/2" length high rolling base. Or an "X" style base with cross beams of 130" each with feet 91-15/16" apart. It has a 110-3/4" lift height with a 47" minimum center line of boom off floor and an 157" maximum center line boom off floor. The boom stroke is 115-3/16" with motorized control. The column is mounted on a heavy duty slowing bearing giving a 360 degree manual column rotation. The rolling base has V-groove wheels to allow base mounted on track. Load end capacity with empty base is 350/700, with 650lb added base weight capacity is 500/1000. Manipulator requires 120 volt, 60 cycle, single phase, 15 amp of input power, wired to conform to NECS.
